Top level exception handler

```
   try { topLevel() }
   catch (ContinuationException ce) { k = ce.continuation; resume(k); }
```

topLevel:
```
      try { ... f() ... }
      catch (ContinuationException ce) { ce.extend(topLevel); throw e; }
```

f:
```
         try { ... g() ... }
         catch (ContinuationException ce) { ce.extend(f); throw e; }
```

g:
```
            try { ... call/cc(h) ... }
            catch (ContinuationException ce) { ce.extend(g); throw e; }
```

call/cc:
```
                              e.extend(h); throw e;
```
