Top level exception handler

```
    try { topLevel() }
    catch (ContinuationException ce) { k = ce.continuation; resume(k); }
```

topLevel:
```
      try { ... f() ... }
      catch (ContinuationException ce) { ce.extend(topLevel); throw ce; }
```

f:
```
          try { ... g() ... }
          catch (ContinuationException ce) { ce.extend(f); throw ce; }
```

g:
```
              try { ... call/cc(h) ... }
              catch (ContinuationException ce) { ce.extend(g); throw ce; }
```

call/cc:
```
                              ce.extend(h); throw ce;
```
