Top level exception handler

```
    try { topLevel() }
    catch (ContinuationException ce) { k = ce.continuation; resume(k); }
```

topLevel:
```
        try { ... f() ... }
        catch (ContinuationException ce) { ce.extend(f); throw e; }
```

f:
```
            try { ... g() ... }
            catch (ContinuationException ce) { ce.extend(g); throw e; }
```

g:
```
                try { ... call/cc(h) ... }
                catch (ContinuationException ce) { ce.extend(i); throw e; }
```

call/cc:
```
                            e.extend(h); throw e;
```
